## DESVM6006

H-Duty 3 Piece vert mount w/ isolators (straight)

## **Features:**

- DESVM6006 mounting kit brackets are designed to mount "passive" DPF systems (NOT EXCEEDING 125 lbs.) vertically utilizing rubber isolation.
- DESVM6006 mounting kits are designed to bolt directly to our DESVM6004 Stanchion kit.
- Constructed and welded using mild steel.

## Installation:

- 1. Brackets must be assembled as shown and hardware torqued to \*\*listed standards, FAILURE TO DO SO MAY CAUSE DAMAGE TO THE "DPF" SYSTEM OR INJURY TO PERSONS.
- 2. Do not tighten isolation hardware to the listed torque specifications! Reasonable care should be taken when tightening, to ensure equal compression and avoid excessive compression of the isolator
- 3. After filter and heat shield are installed, ensure the DPF system does not obstruct or impair the drivers use of the mirrors.
- 4. \*\*TORQUE SPECIFICATIONS: 3/8-16 GRADE 8 (40-50 ft lbs.) 7/16-14 GRADE 8 (60-75 ft lbs.) 1/2-13 GRADE 8 (90-110 ft lbs.)
