

DESSC43 BAND

ECS SC43 Center body mounting band 16.9 DIA

PROPERTY OF DIESEL EMISSIONS SERVICE

*Due to continuous improvements to our products, actual items ordered and received may differ slightly from images shown.

Features:

- DESSC43 BAND is designed to mount around the center body of the ECS SC43 "passive" system.
- DESSC43 BAND mounting foot is 12" in length, and the bolt pattern dimension is 9" center to center.
- Mounting band is constructed from 1-1/2" wide 3/16" thick mild steel.
- Filter mounting bands are powder coated "HI TEMP" black.
- All hardware (hex bolts, flat washers, nylock nuts) are yellow zinc chromate, grade 8 (included).

Installation:

1. Band and hardware must be assembled as shown and hardware "MUST NOT" be torqued to industry standards.
2. Tighten band hardware as necessary to prevent crushing of the filter outer can. FAILURE TO DO SO MAY CAUSE DAMAGE TO THE "DPF" SYSTEM
3. Position the filter mounting bands to ensure adequate ground clearance between filter and roadway.
